

## A Month of Celebrating Mirci Staff!

March is National Social Worker Month, and Mirci lifts up and celebrates our social workers that play such integral roles in our clinical, housing, and outreach programs! They help clients everyday in overcoming challenges like behavioral health issues, food and housing insecurities, and limited healthcare access. We're grateful for the commitment of our social workers to upholding mental health in the Midlands.

### Why did I become a social worker?

**"I became a social worker because I believed there was a need for positive representation in my community, and to assist with instilling empowerment in others, as well as helping them unlock their strengths."**

### Why did I become a social worker?

**"I do this work because imagining a world without social safety nets feels dystopian. That's a world where I would not want to live if I had a difficulty or disability. "The strong do what they can, and the weak suffer what they must" is not a creed that a well-functioning society ought to aspire to."**

During March, Mirci also celebrates Employee Appreciation Day, a joyful time of food, fun, and recognizing the work put in by all of the Mirci team to improve the lives and wellbeing of our clients. We're grateful for all that represent Mirci and its mission!

## Safe and Stable Housing for Midlands Residents

Did you know Mirci houses over 300 individuals at-risk of or experiencing mental illness or homelessness throughout the Midlands? Between permanent supportive housing for vulnerable adults and families with children, and our Transitional Living Program for male youth, Mirci works diligently to find and secure housing opportunities for the many Midlands residents in need of a place to call home. Below are photos of just a few of the move-ins Mirci gets to celebrate each time a client obtains housing through our agency!
